Web Development	Laravel Framework Expertise	Proactive and self-motivated
Artificial Intelligence Development	Docker	Leadership & Project Management
Magento E-Commerce Solutions	Git	Organisation Skills

### PROFESSIONAL EXPERIENCE

#### Lucrin Mauritius

##### Software Engineer & Web Lead Developer

Jan 2021 - Present

Specialized in developing dynamic web applications using Magento, integrating third-party tools, and contributing to ERP (Netsuite) and CRM (Salesforce) development with a focus on reporting. Led a team of developers to deliver high-quality projects, leveraging tools like Jira and Bitbucket for efficient workflow management. Expertise includes server administration, system upgrades, and implementing robust coding practices to optimize performance and maintainability.

#### PwC Mauritius

##### Associate - Technical Consultant

July 2019 - Jan 2021

Proficient in developing web applications using .NET (VB and C#) with strong expertise in database management (SQL Server) and SSRS reporting. Experienced in providing functional consultancy for payroll systems and streamlining processes through robotic process automation using UI Path. Skilled in end-to-end development and system optimization.

#### PwC Mauritius & Microsoft Student Partners

##### Internship

July 2017 - August 2017

June 2018 - August 2018

Gained experience in web and mobile development using HTML5, CSS3, Bootstrap, Xamarin, and .NET (C#) for web applications. Contributed to full-stack development with a focus on API integration and database design, completing a Euro Cup Prediction project to demonstrate end-to-end execution skills.
